

**Information on Adequate Performance of Works**

It is our pleasure to recommend reliable and professional services provided by FOMACH seated in Węgrzce near Kraków.

The following contractual works were performed for us in Golub-Dobrzyń:

- installation of production line for dry construction industry mixes along with automated palletising station

The line was comprised of:

- 5 steel silos along with supporting structure, 44 m<sup>3</sup> each
- screw-conveyor feeders
- mixer with tensometric weighing system
- palletising station along with a robot

Total weight of approx. 70 t

The work were performed on time and with due diligence. The company has adequate technical resources and experience in performing this kind of tasks. We can honestly recommend FOMACH as a reliable partner guaranteeing top class standard of the services provided.
