

**Letter of Reference**

Fomach carried out for Elda-Eltra Elektrotechnika S.A. works connected with relocation of machinery and assembly lines for manufacturing elements for electric wiring systems.

The relocation was carried out from Siedlce to Sondershausen, Germany.

The whole process involving, inter alia, removal of equipment, loading, protection of load, unloading and delivery to the plant, was carried out in compliance with all applicable quality standards and operation requirements and on time.

Fomach has relevant skills and resources as well as experience in performing this kind of tasks. We recommend Fomach as a reliable and trustworthy business partner in relocation projects.

With best regards,

Board Member, Generaldirektor Robert Wielicki
