Our Reference No.: NH / 278 /2015

Re: **LETTER OF REFERENCE**

Between June and August 2015, in the premises of ZBACH Sp. z o.o., Fomach performed machine tools relocation works. The works included: disassembly, transfer, re-assembly, start-up and plant tests of 3 turning and boring lathes. The task was completed in compliance with top quality and OHS standards.

I do recommend FOMACH as a reliable, trustworthy and competent partner in carrying out extensive relocation projects during normal plant operation.

With best regards,

Roman Nowak, Director of Strategy and Sales
